

COPING WITH STUTTERING AT SCHOOL-AGE: A PARENTS AND CHILD PERSPECTIVE

by Liora Emanuel

Dissertation Submitted for the Degree

"Doctor of Philosophy" (Ph.D.)

in the Faculty of Rehabilitation Sciences
of TU Dortmund University
in cooperation with Tel Aviv University

Dortmund, October 2008

Evaluator:

Prof. Dr. Nitza Katz
TU Dortmund University
Faculty of Rehabilitation Sciences
Speech, Communication
and Hearing Disorders

Evaluator:

Prof. Dr. Chava Muchnik,
Sackler Faculty of Medicine
Department of Communication Disorders
Tel Aviv University

I'm especially grateful to Dr. Ruth Ezrati-Vinocure for her infinite patience and enumerable hours of reviewing this work.

Acknowledgements:

This work was accomplished with the support of my family, teachers and friends whom I thank from the bottom of my heart:

My dear husband Shlomo who taught me the power of love and perseverance

My dear son Aviv who taught me the power of will and courage

My dear daughter Tsufit who taught me how support can be given

My teacher Prof. Katz who taught me patience and acceptance, literally and scientifically...

My teacher Dr. Ezrati who taught me compassion and forgiveness, supported me and supervised all along

My teacher Prof. Muchnik for believing in me

Dr. Gilat who taught me statistics and inspired my scientific attitude

My dear friend Nechama Landman who taught me what real friendship means

My parents and brother who motivated me to ask questions and seek answers.

My friend Dr. Findler for her support and inspiration

All the families who participated in the research.

TABLE OF CONTENT

Preface.....	1
Chapter A: Theoretical background.....	4
1. What is stuttering.....	4
2. Why school-aged children.....	7
3. What do we mean by "coping".....	9
3.1. What are problem-focused strategies.....	11
3.2. What are emotion-focused strategies.....	11
4. How do parents cope with a child who has a disability.....	12
5. How can parents or families influence their stuttering child.....	15
5.1 Genetics.....	15
5.2 Findings about speech rate.....	16
5.3 Findings about communicative-pragmatic indexes.....	17
5.4 Findings about linguistic complexity.....	17
5.5 Findings about parents' attitude towards their stuttering child.....	19
5.6. Findings about stuttering Children's attitude towards themselves or their stuttering.....	27
5.7. Findings about attitudes of children who stutter towards their parents.....	30
5.8 Where does all that research lead to.....	31
6. Research questions.....	33
Chapter B: Method.....	34
1. Participants.....	34
2. Research Measures.....	37
2.1 Attitude measures.....	37
2.2 Family adaptation and cohesion measures.....	39
